RE: File #1626-16 (Former File #1834-15); Wilcox Oil Company Superfund Site Project, Bristow,
Creek County, Oklahoma

Dear Ms. Higgins-Coltrain:

We have received and reviewed the standing structures report prepared by Joseph Scott Murphey, Historical Architect with the U.S. Army Corps of Engineers Regional Planning and Environmental Center in Fort Worth, Texas for the U.S. Environmental Protection Agency's Wilcox Oil Company Superfund project in Creek County. As stated in your letter dated May 18, 2016 and received by our office on May 20, 2016, the standing structures report represents the first step in the investigation and remediation efforts that will be undertaken at the site over the next several years and that cultural compliance efforts will be completed in stages culminating in an historic context document of the East Tank Farm.

With regard to the nineteen (19) properties that have been submitted for review (listed on the attachment to this letter), we find that none of them are eligible for the National Register of Historic Places.

Thank you for the opportunity to comment on this project. We look forward to receiving the historic context for the East Tank Farm for review. If you have any questions regarding this request, you may contact Ms. Lynda Schwan Ozan, Architectural Historian, at (405) 522-4478 or Ms. Catharine M. Wood, Historical Archaeologist at (405) 521-6381. Your response must reference the above underlined file number. Thank you.

Sincerely,

Melvena Heisch
Deputy State Historic
Preservation Officer
